

Starpoly® (Core Spun Polyester)

It's a Corespun thread that combines a high tenacity polyester filament core with a polyester fiber wrap.

Benefits:

- High tenacity.
- Peculiar lubrication allows an excellent resistance to abrasion, taking the best performance in all sewing process, even the most demanding.
- Great production performance when compared with sewing threads made of discontinuous fibres.
- Excellent results for customers that require a shiny look in Denim.

Ticket (No.)	TEX (No.)	Strenght (Cn)	Elongation (%)	Meters (m)
